

HEALTH REQUIREMENTS FOR ENTERING PARAGUAY

Valid 02/June/2022

1. VACCINATION CERTIFICATE.

All travelers over 12 years of age must present a certificate of the primary vaccination schedule (one dose or two depending on the type of vaccine).

The vaccination certificate must be in Spanish, English, French or Portuguese, and contain the following information:

- Passenger Name
- Date of Birth
- Document or passport number
- Identification of the manufacturer of the vaccine
- Batch number of dose applied
- Date of application of dose

The Ministry of Public Health and Social Welfare recommends the administration of booster dose for the COVID-19 vaccine.

2. TRAVELERS WHO DO NOT HAVE A VACCINATION CERTIFICATE.

a) Test

All travelers over 12 years of age who do not have a vaccination certificate must present a negative test (RNA detection techniques: RT-PCR / LAMP / NAAT) carried out no later than 72 hours before boarding.

b) People who had COVID.

Travelers from 12 years of age who have suffered from COVID-19 disease, from 10 to 90 days prior to entering the country must prove said situation through laboratory results, RNA detection techniques: RT-PCR/LAMP /NAAT or positive antigen test.

3. TRAVELERS COMING FROM BOLIVIA, BRASIL, PERU AND VENEZUELA.

Travelers from these countries must present a **certificate of vaccination against YELLOW FEVER**, whose dose has been applied at least 10 days before boarding.
