

PAHF- Federación Chilena de Hockey sobre Césped COVID 19 Protocol for 2022 Pan American Cups

Introduction

With the aim of retaking PAHF events, within this “new reality”, we have developed this document where the care of the participants is our main concern, but **without forgetting the objective of this Federation; that is to promote the game in a low-risk environment.**

This document will provide participants with operational and safety guidelines to minimize risks at events.

Federación Chilena de Hockey sobre Césped has the honor, to organize the **Pan American Cups**, Qualifier for the World Cups. The Event will take place at the **Prince of Wales Country Club in Santiago, Chile.**

The visiting countries will be Argentina, Canada, Brazil, Mexico, Peru, Trinidad & Tobago, Uruguay, and the United States of America

In order to safeguard the health of the players, officials and all parties involved in the organization (FEDERACION CHILENA DE HOCKEY SOBRE CESPED) and PAHF have developed a COVID-19 protocol document.

All the parties; Host, participating National Associations, and Appointed Officials are required to sign the COVID Protocol Acknowledgement Form, indicating acceptance and commitment to abide these requirements contained therein. **Noncompliance of the Covid Protocol by one or more parties, will be understood as creating a risk to all other parties. Such a breach is subject to disciplinary sanction.**

This PAHF/ Federación Chilena de Hockey sobre Césped COVID-19 Protocol (further: **the protocol**) is based on the document “**FIH Tournament Protocols during COVID-19 Pandemic**”, **guidance document produced April 2021** for organizing countries. We use it as a guideline throughout this protocol.

FIH Top Tier Tournament Regulations for Outdoor Competitions October 2021 rule this tournament (<http://fih.ch/media/12234031/fih-top-tier-tournament-regulations-21-october-2021.pdf>)

This protocol has been prepared as of October 18th, 2021, and reviewed on December 10th, 2021, and keeps in mind the national restrictions made by the host government on this date.

THESE RESTRICTIONS MIGHT CHANGE ANYTIME.

Organization:

Local Organizing Committee and PAHF Officials:

Federación Chilena de Hockey

Head of Event

Name: Virginia Dato Robinson

E-Mail: gerencia@fehoch.cl

Mobile: +56990470899

PAHF Medical Officer

(see description of a COVID Officer in Appendix I)

Event profile:

This is an outdoors sporting event, played by 18 players on the pitch. The number of spectators allowed will be determined by Government Regulations at the time of the event. Every person involved on site is given access to specific zones depending on their given accreditation.

Characteristics of the event:

- **Spectators:** Yes (number as per Government Regulations at the time of the event)
- **Participants:** Outdoors sport with limited contacts
- **Origin of teams and officials:** Continental

Dates

19- 30 January 2022

The match schedule was approved by FIH on October 15th, 2021

Teams and Officials

The protocol described underneath gives detailed information from the arrival at the **Santiago International Airport**, (Arturo Merino Benítez) to the venue and back to the hotel and airport:

Before arrival

At the moment of writing this protocol, every person entering Chile is required:

- 1- Be fully vaccinated with approved vaccines (at present) Moderna, Pfizer/BioNTech, Janssen (Johnson & Johnson), Oxford/AstraZeneca, Sinopharm, Sinovac, CanSino and Generium (Sputnik-V)
- 2- Must validate vaccines(s) certificate at <https://mevacuno.gob.cl/> . THIS CAN TAKE UP TO 30 DAYS. PLEASE FILL IN THE FORM WITH ENOUGH TIME BUT WITH NO MORE OF 45 DAYS BEFORE ARRIVAL AS IT WILL EXPIRE.
- 3- All travelers need to complete Affidavit form at www.c19.cl , this form is a requirement for entering Chile and must be completed before starting the trip (maximum 48 hours before).

To complete the affidavit, it is required to have previously received the Chilean Ministry of Health approval of the validation of the vaccines received abroad and must enter as a “travel document” the same ID document that was registered on the site mevacuno.gob.cl at the time of validating your vaccination. **It is important to use the same document in all forms (passport or National ID).**

- 4- Foreigners arriving to Chile MUST have a health insurance covering medical services for COVID 19. The minimum coverage for COVID must be US 30.000.

- 5- A Negative RT-PCR (Quick tests are not acceptable), having been tested a maximum of 72 hours **before the flight to Chile. If you have connecting flights the 72 hours count from the flight arriving in Chile.**
- 6- A negative RT-PCR at arrival. **Depending on arrival time the result can take up to 24 hs so have this in mind when planning your trip, as you will need to wait for the result at the hotel.**

Participants **will not have to quarantine**, once the result of the negative PCR (tested at arrival).

At present this PCR (at arrival) is done at the airport with no cost, but this may vary, and the cost would be approximately (US30/ 32).

Participants **will not have to quarantine**, once the result of the PCR at arrival is negative , if they arrive to one of the following airports: Aeropuerto Arturo Merino Benítez, Aeropuerto Iquique, Aeropuerto Antofagasta, Aeropuerto Punta Arenas

Visitors arriving by other means of transport (land, sea) will have to quarantine for 5 days regardless of the PCR negative test.

After being tested, at arrival, the visitor must stay at the hotel until the negative result is received. This protocol takes 24 hours, approximately, when done on working days.

Arrival

For the period of their stay, teams will form a “Team Bubble” composed of the playing squad and all travelling staff. All reasonable risk must be avoided.

The Team Bubble will, at all times, aim to reduce the group’s exposure to anyone outside that group.

Pick up at Santiago International Airport (Arturo Merino Benítez only). Arrival to different airport, the cost will be by NA.

All players and support staff in close interaction with each other are to be from the same Bubble, from the time of testing until the end of the competition

No physical interactions with people outside their Bubble

Aim to maintain the Team Bubble in the hotel, during transport and at training and venue.

Host NA has made arrangements at the **listed Hotels as informed in Bulletin 1** sent to all the teams.

These are **full-service** hotels (with a restaurant where you can order lunch and dinner). All food is to be prepared by minimum number of staff with personal protective equipment worn by staff when serving food. Each NA is responsible

for liaising with Federacion Chilena de Hockey for the payment and final details.

No Team, Staff and Officials members of the Bubble are allowed to use external restaurants.

Please note, that teams will not be allowed to stay at a different hotel other than the official hotel(s).

Maximum occupancy of rooms: Double

The host is to ensure that training and match venue comply with FIH requirements as per FIH Outdoors Regulations. Host will work with the suggested hotel(s) to set up zones to maintain Team Bubbles and set up zones within venues with clarity over who can enter each zone. For example, at matches venue, players, team staff and officials are only allowed in the zone that includes technical area and pitch.

All rooms and facilities are to be used within the Bubble and must be thoroughly cleaned prior to usage and **regularly cleaned between usage**. All rooms must be ventilated as many times in the day as possible. FEDERACION CHILENA DE HOCKEY SOBRE CESPED hockey has a “cleaning crew” that will clean and sanitize team benches and technical table after each game.

PCR Testing

Players due to take part in the upcoming **Pan American Cups** may be involved in club training sessions and matches, as well as national training sessions, in the 10 days prior to PAHF competition. It is therefore unreasonable and impractical to expect players to be completely “bio-secure” during these periods and to live and behave in quarantine conditions.

However, what is expected of all players, team staff and officials, is that during this time they behave responsibly, follow social distancing guidelines and the government guidelines or directives in place in their country. It is not possible for this behavior to be fully monitored by the PAHF, so all National Associations are responsible for their players health and safety and are expected to guide and advise their players and staff on what is appropriate and reduces risks as much as possible whilst still facilitating players to play and train for their clubs and national teams.

Once national teams come together to travel, or train in the days prior to the Pan American Cups, the National Association will have greater control over their playing group and staff, and it is expected that their risk factors will be further reduced.

All players, team staff and officials must be tested before flying (or entering Chile borders), maximum **72 hours before the flight arriving in Chile (this is subject to international and local requirements at the time of traveling)**. Teams must remain in a bubble, that is as secure as possible from the time of the test until leaving the venue after the end of the match(es).

All National Associations are responsible for their players and staff, so all need to adopt a conservative and cautious approach to minimize risk for their groups as well as the other teams, including additional testing (if applies) before the

mandatory agreed testing, traveling in a socially distanced way, staying in single or double rooms etc.

All Nations need to confirm that they will avoid having any close contacts within their playing groups by putting in place protocols for travel, eating, sleeping, training and medical treatment that avoid any 2 people coming into close contact (<1.5m for 15 minutes or more) at any time. Therefore, there should not be any close contacts within the Team Bubbles.

All players, team staff and officials, including locals must come to the event with a negative PCR test, and such that the results will be sent to the Event Coordinator [- lauramac@panamhockey.org](mailto:lauramac@panamhockey.org) on or before **16 January 2022**.

Each National Association, including the Host, will be responsible for organizing, conducting, and paying for their own team and staff tests that will be done in accordance with international medical standards by medical professionals before arriving in Chile and before departing (if needed). The host NA agrees to help organizing the tests required before departure. Cost of the PCR is approximately US 30/32

If a player or team staff experiences any symptoms, the Covid-19 Officer and the Event Coordinator must be immediately informed by the Team Manager or his /her designate and the Medical officer will administer Rapid Antigen Test to the individual. If the Rapid Test turns out to be positive, another Rapid Test will be done, if the second Rapid Test turn out to be positive, then that individual will have to do a RT-PCR Test. All tests performed will be at the NA costs.

All NAs are required to obtain special traveling/ health insurance covering medical service for COVID (minimum coverage US 30000) for each member of their delegation, as any costs related to a positive COVID test must be covered by each NA.

Testing Timing:

All participants at the tournament; local teams, team staff, local officials, visitor teams, staff and officials will get an Antigen Test on day - 1 (January 18th, 2022) **and one on January 23rd**. Cost approximately US7 / test.

Chilean Teams, staff and officers **must have a Negative PCR** before entering the hotel.

Should any member of a visiting team(s), resides and is travelling to the event from within Chile they must be subjected to a PCR Test before they join the Bubble.

PCRs for departure of visitor teams, staff and officials will be organize at teams' request. (Not all countries request a test to return to their country). It is the teams' responsibility to inform the host if they need the service.

Cost of PCR Tests and Rapid Antigen Tests (if necessary) for Teams and Officials during tournament, and when flying in or out of Chile are their responsibility or their NA's

Note:

Players who have tested positive for Covid-19 within 90 days before the tournament (or event), and have complied with the following prescribed isolation and rest periods for the severity of infection noted below:

- a) 10 days – mild/asymptomatic case,

PAHF
2605 Ponce de Leon Blvd.
Coral Gables, Florida, 33134 USA

CONTACT US
info@panamhockey.org
www.panamhockey.org

- b) 15 days – critically ill/hospitalized case, and
- c) 20 days – immunocompromised with maximum infectivity

Still require s PCR test TO PLAY

A Health Certificate is required under the Tournament Regulation 4.2, and must also provide details of past Covid-19 infection and current clinical status must be submitted to the PAHF Medical Panel for their review, and clearance to participate by a previously infected player.

CHILEAN AUTHORITIES REQUIRE A PCR TEST FOR THIS GROUP TO ENTER CHILE. IF THE PCR TEST BEFORE TRAVELLING IS POSITIVE, THIS GROUP WILL STILL BE ALLOWED TO ENTER THE COUNTRY ATTACHING THE PAST COVID CERTIFICATE SHOWING INFECTION AND THE HEALTH CERTIFICATE AS DETAILED ABOVE.

Positive test results

Should there be three (3) or less positive test results, those players and/or staff would be isolated from the group and the team would continue in the competition, subject to the TD, with recommendations from the Medical Officer and the FIH COVID Playbook, reviewing any additional concerns. Roommates of positive individuals will have to be isolated.

In accordance with the recently amended **FIH Top Tier Tournament Regulations October 2021 Appendix 16**, (FIH Tournament Protocols during Covid-19 Pandemic, June 2021) for outdoors hockey events **for teams to continue in a competition they must have a minimum of 14 athletes available and no more than 3 positive test results.**

Positive tested athletes, staff and/or officials and their roommates, will be isolated and will not be allowed to leave the room. If a different policy from Chilean Government applies, this one will take precedence provide the health and safety of all participants is not compromised.

Hotel

Check-in procedure for Teams and Officials

1. All passports & rooming list need to be provided digitally (scans) 96 hours before arrival.
2. At arrival (at the hotel) = no physical contact between hotel reception & team
 - a. Team Manager collects the room keys at the reception
 - b. Team Manager distribute the room keys in the bus
 - c. Players go directly to their room without gathering in the lobby of the hotel
 - d. Officials collect their keys at the front desk

- e. It is recommended not to use elevators, when possible, use of stairs instead
3. Rooms predefined before arrival & communicated to the team manager and Event Coordinator upfront, respectively
4. All go immediately to designated room
5. Team Managers will provide players and staff with individual alcohol bottles and sanitizer for equipment. Host will help if teams need to buy more supplies, so they don't break the Bubble

General hotel rules

Following rules will apply at all-time inside the hotel

- Wear masks at all-time except in own sleeping room or while seated for meals
- Separate space at dining room per team bubble with food prepared by minimum number of staff with personal protective equipment worn by staff when serving food.
- Keep social distancing (1.5m) from hotel personnel and other visitors
- Sauna & Fitness (If applies) can be reserved for the team bubble after cleaning and disinfection by hotel/ Timing to be agreed. This will have to be requested by teams to the hotel and might have a cost. Subject to government restrictions.
- A meeting room for team's bubble will be assigned for the entire period without other use.
- All Hotel staff servicing athletes and officials' areas to wear masks

Catering

A dedicated space for each team will be used as a catering area that can be used for breakfast, lunch and dinner. No other people to dine in this space while the teams are staying at the hotel. Buffet style food will be served by limited catering staff direct to the team.

At the venue there will be no catering available for teams & staff.

Transport

Every Team will travel as a bubble.

Buses of 40 seats per delegation.

Driver will be separated from teams by a screen and MUST wear a mask.

Bus must be sanitized after every use.

Teams must wear mask during the transfer periods

At the venue – Before the game

Following measures will apply for the teams and officials arriving at the venue before the game:

- Dedicated bus stop with teams/ officials only entrance.
- Teams/ umpires wear masks at all-time except on the field of play
- Separate players flow for team bubbles
- There will be no changing rooms. Teams and officials need to come ready to play. No showers at venue
- Teams will have a place to leave bags and personal items.
- Temperature will be measured to Teams, staff, and officials before entering the venue (for training sessions and matches)
- Washing hands at arrival and after the game, and the use of sanitizer/ alcohol is mandatory
- No exchange of flags/ presents between teams
- No exchange of uniforms used or new between players or with volunteers
- Medical isolation room available at the venue
- No team catering at the venue before or after the game

During the game - On the field

Following measures will apply for the teams on the field of play:

- Social distance in team benches
- Team Manager/ coach does not seat with the players and must wear masks, at all times. (Chairs to be placed outside the bench)
- Players to bring their own reusable bottles marked with name or number, host will provide individual water bottles to teams
- No flags or flag kids on the field of play
- minimum number of Ball patrol. They must wear masks
- No mascots accompanying teams, pre-match
- Away Team enters the pitch first, then home team (not together!)
- Officials enter as last
- Extra distance between the teams, no handshakes.
- National anthems of both teams will be played

- Team huddle and start of game.
- No sharing of equipment - all players must have their own protective equipment for defending penalty corners, properly marked.
- No spitting, nose blowing
- No physical interaction between players and event staff/volunteers/ before, during or after matches
- No handshakes after national anthems or at end of match between opposition players.

After the game

Following measures will apply for the teams after the game before leaving the venue:

- Teams/Staff to wear masks, at all times, when leaving the pitch
- Teams wash their hands and use sanitizer/ alcohol before leaving the venue
- Journalists to wear masks at all time
- Mixed zone with 1.5m distance between journalists & players/staff (physical separation)
- No showering or ice baths at the venue
- No meet & greet or contact with people outside the team bubble after the game
- All equipment and venue sanitized
- Pitch, Technical Table cleaned and sanitized after each game

Organization

Volunteers

Same procedure of the crew will be followed by volunteers:

Every Volunteer Temperature will be measured by a 'Forehead Thermometer'. If the temperature is above +37.4C / 99.32F, the Volunteer will be sent home and asked to stay in quarantine. The Covid-19 Officer shall be informed, initiate contact tracing activities and shall assess the risk to the affected volunteer group.

Wash and sanitize hands with alcohol at arrival and before departure.

When the volunteer is walking in the venue it will have to follow those rules:

- Wear masks at all time
- Try to keep distance from other people
- Wash hands regularly at the available dispensers, use sanitizer
- Help to keep an eye on the venue that every person follows the rules

Their positioning could be near to players, that is why they should be very careful to keep safe distancing when positioned in their zone.

Suppliers

Every supplier will be informed by the organization of the hockey and government protocol, these are similar as the ones

for the crew members:

Temperature will be measured at the entrance, and use of alcohol in hands mandatory

- Wear masks at all time
- Keep distance from other people
- Wash hands regularly and use of sanitizer
- Fill in and sign the form before entering the venue Suppliers which are present on the day of the games will have an accreditation. They will have access only to the zone where they are needed.

TV & Press

Every member from the press and TV crew will follow the rules like the suppliers:

- Temperature will be measured at the entrance and use of alcohol is mandatory
- Wear masks at all time
- Keep distance from other people
- Wash hands regularly and use of sanitizer
- Fill in and sign the form before entering the venue

TV crew and Press which are present on the day of the games will have an accreditation. They will have access only to the zones where they can come.

The seats for the press and TV crew in the existing stands will be marked and set up at 1,5m distance.

Security

The tasks of the security are of great importance. They also have procedures given by their company and by the organization. Every security will have to:

- Wear a face mask.
- Wear an extra face shield when talking to people.
- Wash hand regularly and use alcohol and sanitizer
- Temperature measure cannot exceed the 37.4
- Keep an eye on the venue and outside the venue.
- Fill in and sign the form before entering the venue

At the Venue (all parties involved)

we have taken some special measures at the venue:

PAHF
2605 Ponce de Leon Blvd.
Coral Gables, Florida, 33134 USA

CONTACT US
info@panamhockey.org
www.panamhockey.org

- The whole venue will be closed by temporary fencing and will be guarded at the entrance by security.
- Before entering the venue, every person will be scanned with a 'Forehead Thermometer'. When the persons temperature exceeds 37.4°C / 99.32F, he or she will not be allowed on the venue.
- When entering the venue everyone MUST wear a facemask at all time, sanitize hands with alcohol
- The venue will be dressed up with signs and panels explaining the COVID 19 measures and what to do to avoid contamination (example underneath):
- Hand sanitizer dispensers will be available to always disinfect hands.
- Walking directions and/or distancing stickers so that people can keep distance whenever they may encounter a narrow area.
- The seats for press and TV crew in the existing stands will be marked and set up at 1,5m distance.
- No VIP lounges.
- No athletes rest room.
- The toilets used by the players & officials will be cleaned thoroughly before and after every game.
- The toilets for the press & TV and organization will be cleaned several times a day.
- The mixed zone will be made as such that the people from the press or TV will have to keep 1,5m distance from the player to interview them.
- The players and officials will be separated from anyone on the organization.
- At the request of the Covid-19 Officer or PAHF Medical Doctor, rapid antigen tests will be administered by the designated Medical Professional to any participant within the event that displays any symptom(s) of the Covid-19 virus. There will be rapid tests available in case any of the players/ team staff or officials present one or more suspicious symptoms.

Equipment check. In two different locations with a schedule to avoid crowding. Only 1 person per team with equipment. Officials using gloves, equipment sanitized before and after check

Photo position: Photographers MUST wear masks

Summary of responsibilities

	PAHF	HOST	TEAMS	Technical OFFICIALS
Documents	Produce Protocol document and keep update	Sign and comply with requirements	Sign and comply with requirements	Sign and comply with requirements
Cost of PCR Testing before arrival/ at arrival and departure	PAHF Staff	Chilean Teams, staff and Chilean Officials Negative PCR before entering the hotel, Antigen test on January 18th	72 hrs. before arrival. PCR at arrival (if applies). Antigen test on January 18th New PCR Test 72 hrs. before their arrival to their country. (if required) Cost by NA	72 hrs. before arrival. PCR at arrival (if applies). Antigen test on January 18th New PCR Test 72 hrs. before their arrival to their country. (if required) Cost by NA
Medical/ Health coverage	PAHF Staff and those visiting officials that do not have their own. Insurance MUST cover COVID (minimum US 30000)		At NA cost. Insurance MUST cover COVID (minimum US 30000)	PAHF will cover insurance for foreign officials

Cost of quarantine/ isolation if positive PCR		Host to cover any costs for locals if applies.	NAs to cover any cost not covered by health insurance	NAs to cover any cost not covered by health insurance
Alcohol and sanitizer for equipment and masks		Host to provide to officials, volunteers, and organization staff, tv crew, press and suppliers. Masks by individuals	All teams need to have their own sanitizer for their equipment and masks	Host will provide alcohol and sanitizers. PAHF will provide face masks

Appendix I Job description COVID Officer

COVID-19 Officer(s) - Objectives

Establishment and maintenance of Operational and Medical guidelines and protocols (including for COVID-19), ensure compliance with all Covid-19 protocols by all those involved in PAHF competitions. This is of importance for the resumption process for hockey during pandemic times. If it is complied responsibly, it will ensure a favorable and successful journey of the road towards the hosting of the PAC event, without interruptions.

COVID-19 Officer(s)

The person(s) in charge of reviewing and ensuring all Health & Safety Practices to minimizing the risk of participants contracting COVID-19 at the competition's venue and team hotel accommodations. The Covid Officer(s) will report to the Local Organizing Committee & the PAHF, who will in turn report to the FIH. During the event the, COVID 19 Officer(s) will raise relevant issues with the appointed TD, PAHF Event Coordinator and Federacion Chilena Head of Event for the Local Organizing Committee

The COVID-19 Officer will have the following tasks:

- Use the WHO Risk Assessment Tool (<https://www.who.int/publications/i/item/10665-333187>) monitor and assess risk prior to and during the event.
- Establish Contact Tracing Procedures and measures to minimize the risk of Covid-19 spread.
- Ensure that all people working on site implement and respect health and hygiene measures.
- He/she must ascertain the health conditions (asking questions according to the model questionnaire provided by PAHF (Appendix II) and carrying out temperature checks of all those involved in the operation of the game.
- He/she will ensure compliance with the basic hygiene rules (use of protection elements, hand hygiene, social distancing rules, etc.)
- He/she will be responsible for supervising the execution of all the procedures for sanitizing spaces and areas of the stadium, and for the delivery of the facilities in good conditions to the teams, umpires, officials and PAHF Staff.
- Responsible, for the distribution of protection material such as masks and disinfectants to professionals who work in TV production, and other collaborators in the organization of the game on behalf of the host (ball patrol, photographers, FOP maintenance people, suppliers, etc.)
- The COVID-19 Officer must intervene in the case of non-compliance and / or bad practices by all participants, volunteers and other accredited persons

- The Covid-19 Officer must inform the security officer and PAHF Event Coordinator of any breaches in the protocols in the face of repeated warnings and refusals from a user who is not following the Covid-19 protocols. The aforementioned authorities will evaluate the possible invalidation of accreditation of the offenders.
- Responsible for informing all the people who participate in the stadium operations about the basic hygiene measures and their compliance (hand disinfection, hygiene in case of coughing and sneezing, rule of distancing, correct use of masks, etc.)
- He/she will draw up a cleaning plan and a disinfection plan, which he/she will communicate to all relevant areas of the venue, TD, Medical Officer and PAHF Event Coordinator in advance.
- Must attend briefing meeting.
- Must collect the health forms received at each access door and deliver them to the Event Coordinator.
- Ensure there are enough copies of the health form (see Appendix II) printed at each entrance in case someone arrives at the venue without it, and, in this case, they can complete it on site prior to entry.

Failure to comply with the protocol advised by the COVID-19 Officer(s) by any person from the teams and / or designated officials at the stadium, will be subject to disciplinary sanction.

Appendix II - Health Form

HEALTH QUESTIONNAIRE

<i>(Staff, Suppliers, TV Right Holders)</i>	
<i>Please insert the following information as requested:</i>	
1 - PERSONAL INFORMATION	ANSWER
Name and surname	
Passport / ID number	
Gender (Male / Female)	
Date of Birth	
Nationality	
City	
Country	
WhatsApp	
Email	

2 - COVID-19 SPECIFIC HEALTH QUESTIONNAIRE

Do you currently have any of these symptoms?

Fever	
Dry cough	
Productive cough	
Respiratory distress	
Chest pain or pressure	
Throat pain	
Headache	
Muscle aches	
Are you able to smell odors, taste?	
Abnormal tiredness	

3 - CONTACT BACKGROUND

Have you been in contact with someone affected by COVID-19 in the same room, talking, physical contact?

--

Have you been in contact with someone in quarantine?

Countries visited in the last 6 weeks - Specify which ones

4 - VERACITY OF INFORMATION - IMPORTANT

I DECLARE THAT ALL THE DATA I HAVE PROVIDED ARE
CORRECT AND TRUTHFUL
